

This Journal of Environmental Horticulture article is reproduced with the consent of the Horticultural Research Institute (HRI – <u>www.hriresearch.org</u>), which was established in 1962 as the research and development affiliate of the American Nursery & Landscape Association (ANLA – <u>http://www.anla.org</u>).

## HRI's Mission:

To direct, fund, promote and communicate horticultural research, which increases the quality and value of ornamental plants, improves the productivity and profitability of the nursery and landscape industry, and protects and enhances the environment.

The use of any trade name in this article does not imply an endorsement of the equipment, product or process named, nor any criticism of any similar products that are not mentioned.

## 1993 Volume 11, Numbers 1-4 Subject Index

Acclimatization of dwarf pampus grass 11:20
of dwarf pampus grass
Acer see Maple
Apache Plume effect of mulch on crown growth of
Armored Scale Insects
biological control of
Ash
root regeneration
Azalea
control of azalea lace bug in
Azalea Lace Bug control on azalea
Bagworm
control on juniper
susceptibility of honeylocust cultivars to
Betula see Birch
Birch
effect of irrigation scheduling on growth of
Cercocarpus spp see Curlleaf Mahogany
Cliff Rose effect of mulch on crown growth of
Cold Acclimatization
in forsythia flower buds
Cold Hardiness
evaluation of maple cultivars for
evaluation of new plant introductions for
Cold Tolerance
of new plant introductions
Compost use of poultry litter in
Container Grown Perennials
effect of herbicides on
overwintering of
Container Grown Plants
phytotoxicity to basagran
Container Nursery Production comparison of production systems on growth
economic performance in
effect of container size on growth
effect of cu-treated containers on transplant survival 11:196
irrigation scheduling of
use of cu-treated containers in
Controlled Release Fertilizer
effect on N loading
nitrate leaching
Copper-treated Containers
affect on arouth of normalic 11:106
effect on growth of perennials

Horticultural Research Institute J. Environ. Hort. 11(4). December 1993

Integrated Pest Management	.20
for armored scale insects	:28
Irrigation	
scheduling in container-grown crops 11: Ivy	
effect of postemergence herbicides on	:45
Juniper	167
control of bagworm in	128
evaluation for susceptibility to bagworm	167
Juniperus see Juniper	
Lagerstroemia see Crapemyrtle	
Landscape Maintenance	
of roses under drought conditions	:59
Leafhoppers genetic variation in susceptibility to	
management on maple	101
Leatherleaf Fern	.02
weed control in	.95
Ligustrum see Privet Liquidambar see Sweetgum	
Living Mulch	
to control soil erosion	1:5
Magnesium	1.5
olivine as a source of	:31
Malus see Crabapple	
Maple	
evaluation of cultivars for cold hardiness	
genetic variation in fall leaf color	
growth and survivability in cu-treated containers 11:1	.96
identification using DNA amplification	:89
resistance to potato leafhopper	01
Marketing	01
garden center needs	:25
plant material requests by landscape architects	10
Media	
effect on growth 11:1	37
use of composted poultry litter in 11:1	31
Micropropagation	-
of dwarf pampus grass	20
of mountain andromeda	91
micropropagation of	91
Mulch	71
effect on crown growth	41
Mycorrhizae	
inoculation in landscape plants	64
Nandina	
effect of growth regulators on branching of	41
Native Plants	
effect of mulch on growth of	41
micropropagation of mountain andromeda	
Nitrogen	55
loading in the soil profile	82
Nutrient Loss	
in container-grown plant material	75
Nutrition	
olivine as a Mg source	31
Oak	~ .
growth and survivability in cu-treated containers	96
survival of cuttings	87
Ornamental Grass	02
acclimatization following <i>in vitro</i> culture	20
Overwintering Structures	
Peace Lilv	
fertilization programs for	22
Perennial	
effect of cu-treated containers on production	06

weed control in	:48
	.70
Periwinkle growth regulation with Pro-shear	140
Phlox see Perennial	147
Photinia	
effect of irrigation scheduling on growth of	115
growth regulation of	1.1
Pieris see Mountain Andromeda	1.1
Privet	170
effect of herbicides on rooting of	128
Propagation	1/0
effect of container size on root development	100
effect of fertilizer on survival of oak cuttings	120
effect of herbicide on hardwood cuttings	
influence of light and temperature on germination	.55
of dwarf pampus grass	
of mountain andromeda by shoot tip culture	191
seed germination of rhododendron	
Psuedotsuga see Douglas Fir	.55
Quercus see Oak	
Rhododendron see Azalea	
Root Development influence of container size on	140
	100
Root Regeneration	1 1 0
effect of cold storage on	119
Rooting	
effect of herbicides on	157
Rosa see Rose	
Rose	
drought response of 11	:59
Rumohra see Leatherleaf Fern	
Schlumbergia see Holiday Cactus	
Seed Propagation	
of rhododendron	:55
Soil Conservation	
preventing erosion with cover crops	1:5
Soil Erosion	
use of cover crops to prevent	1:5
Spathiphyllum see Peace Lily	
Stock Plants	
effects of herbicides on rooting from	28
Sweetgum	
growth and survivability in cu-treated containers	96
Tissue Culture	
of dwarf pampus grass	:20
of mountain andromeda	91
Transplanting	
effect of cu-treated containers on survival	96
growth in cu-treated containers on	
Turf	
response of tall fescue to mowing	63
Vinca see Periwinkle	
Vincasee Periwinkle Water Usage	
Vincasee Periwinkle Water Usage effect on composted poultry litter	
Vincasee Periwinkle Water Usage effect on composted poultry litter	37
Vinca see Periwinkle Water Usage effect on composted poultry litter	
Vincasee Periwinkle Water Usage effect on composted poultry litter	.37 :59
Vinca see Periwinkle         Water Usage         effect on composted poultry litter	37 :59 :17
Vinca see Periwinkle         Water Usage         effect on composted poultry litter	.37 :59 :17 :78
Vinca see Periwinkle         Water Usage         effect on composted poultry litter	.37 :59 :17 :78
