

This Journal of Environmental Horticulture article is reproduced with the consent of the Horticultural Research Institute (HRI – www.hriresearch.org), which was established in 1962 as the research and development affiliate of the American Nursery & Landscape Association (ANLA – <http://www.anla.org>).

HRI's Mission:

To direct, fund, promote and communicate horticultural research, which increases the quality and value of ornamental plants, improves the productivity and profitability of the nursery and landscape industry, and protects and enhances the environment.

The use of any trade name in this article does not imply an endorsement of the equipment, product or process named, nor any criticism of any similar products that are not mentioned.

1996 Volume 14, Numbers 1-4

1995 Volume 14, Issue 1-4

Subject Index

- Acer** . . . see **Maple**
- Ageratum**
effect of irrigation on growth 14:17
- Ash**
use of nematodes to control clearwing borer 14:67
- Averrhoa** . . . see **Carambola**
- Azalea**
effect of herbicide on root growth 14:210
yard compost as a media substrate 14:115
- Bedding Plants**
growth in coir dust substitutes 14:187
production in stabilized sewage sludge 14:160
- Biological Control**
of banded clearwing borer in Ash 14:67
- Blackgum**
production in containers 14:13
- Bougainvillea**
propagation of 14:181
- Boxwood**
growth regulants on the production of 14:177
- Buxus** . . . see **Boxwood**
- Callus Cultures**
bacterial contamination in 14:50
- Carambola**
root pruning on growth 14:47
- Castanea** . . . see **Chestnut**
- Christmas Trees**
vegetation management in 14:42
- Chrysanthemum**
production in copper-impregnated containers 14:191
- Cold Hardiness**
in crabapple cultivars 14:111
- Community Gardening**
on quality of life 14:204
- Compost**
a substrate in container media 14:115
- Container Media**
for bare root tree production 14:137
pulp and sludge as ingredients 14:91
rubber tire chips as a component of 14:122
use of coir dust as substrate 14:187
using stabilized sewage sludge 14:160
yard compost as a component for 14:115
- Container Production**
effect of container size on temperature 14:184
of bare root trees 14:137
of Chrysanthemum 14:191
of herbaceous perennials 14:214
of tropical fruit crops 14:47
temperature in containers 14:170
use of yard compost in media 14:115
- Cotoneaster**
effect of irrigation on growth of 14:199
- Crabapple**
cold hardiness in 14:111
- Crape Myrtle**
growth in large containers 14:9
- Crateagus** . . . see **Hawthorn**
- Cupric Hydroxide**
effects of rooting of bougainvillea 14:181
- Cyclic Irrigation**
for production of Ageratum 14:17
- Dendranthemum** . . . see **Chrysanthemum**
- Dimocarpus** . . . see **Longen**
- Disease Screening**
of Photinia for entomosporium leafspot 14:154
- Eleagnus**
Bacterial contamination in callus cultures of 14:50
control of insects on 14:22
growth regulants on the production of 14:177
host-parasite relationships in 14:33
tolerance of Dutch elm disease 14:150
- Epipremnum** . . . see **Pothos**
- Euonymus**
growth regulants on the production of 14:177
- Fertilization**
effects on growth of holly 14:105
- Field Production Systems**
comparison of 14:142
- Foliage Plants**
effect on worker productivity 14:97
growth regulation in 14:44
- Forsythia**
growth in composted media 14:122
- Fraxinus** . . . see **Ash**
- Freezing Injury**
on regrowth of perennials 14:214
- Gardenia**
weed control in 14:5
- Gas Exchange Capacity**
in Maple 14:30
- Generic Diversity**
in *Loropetalum* 14:38
- Growth Regulants**
on pine seedling growth 14:228
on pothos 14:44
on woody landscape plants 14:177
- Hardiness**
of herbaceous perennials 14:214
- Hawthorn**
shoot water potential on transplanting 14:1
water stress in 14:71
- Herbicide**
application with fertilizers 14:5
evaluation in Christmas trees 14:42
on field grown perennials 14:221
on root growth 14:210
- Holly**
effect of herbicide on root growth 14:210
fertilization and irrigation on growth 14:105
growth regulants on the production of 14:177
production effects on tree establishments 14:81
production method effects root growth 14:88
temperature in containers 14:170
- Human Issues**
in horticulture 14:204

Hybridization	
for Dutch elm disease tolerance	14:150
<i>Ilex</i> ... see Holly	
Insecticides	
for elm insect pest control	14:22
Irrigation	
application efficiency	14:194
comparison in of systems	14:17
effects on growth of holly	14:105
effect on nutrient efficiency	14:199
Juniper	
growth in composted media	14:122
<i>Juniperus</i> ... see Juniper	
<i>Lagerstroema</i> ... see Crape Myrtle	
Landscape Maintenance Firms	
business practice influencing performance	14:53
opportunities for relationships with	
nursery industry	14:62
pest management practices	14:58
Lilac	
growth in amended media	14:91
Longen	
root pruning on growth.....	14:47
<i>Loropetalum</i>	
genetic diversity in	14:38
<i>Lupinus</i> ... see Lupine	
Magnolia	
propagation by stem cuttings	14:158
<i>Malus</i> ... see Crabapple	
<i>Mangifera</i> ... see Mango	
Mango	
root pruning on growth.....	14:47
Maple	
gas exchange in	14:30
growth in amended media	14:91
shoot water potential on transplanting	14:1
water stress in	14:71
Market Research	
of landscape firms	14:53
on pest management practices	14:58
service to industry	14:62
Marketing Practices	
of nursery crops	14:129
Media Characteristics	
for bare root tree production.....	14:137
Morphology	
effect on water loss	14:71
Mountain Camellia	
propagation by stem cuttings	14:163
Nematodes	
for control of Ash clearwing borer	14:67
Nursery Production	
container size effects temperature	14:184
Crape Myrtle in containers	14:9
of Bougainvillea	14:181
of pine seedlings.....	14:228
Nursery Trade Flow	
survey of.....	14:129
<i>Nyssa</i> ... see Blackgum Oak	
production effects on tree establishment	14:81
production in containers	14:13
production method effects root growth	14:88
propagation by stem cuttings	14:77, 217
Overwintering Survival	
of rooted <i>Stewartia</i> cuttings	14:163
People-Plant Interaction	14:204
Perennials	
effect of freezing on regrowth	14:214
growth under field conditions	14:221
weed control in container-grown	14:27
Pest Management Practices	
in landscape management firms	14:58
Photinia	
resistance to Entomosporium leafspot	14:154
Pine	
use of growth regulants to promote sturdiness ..	14:228
<i>Pinus</i> ... see Pine	
Plum	
growth in amended media	14:91
Pothos	
growth regulation in	14:44
Propagation	
of oak	14:77
of oak by stem cuttings.....	14:217
seed germination of Lupine	14:167
of southern Magnolia by stem cuttings	14:158
of <i>Stewartia</i> by stem cuttings	14:163
<i>Prunus</i> ... see Plum	
<i>Quercus</i> ... see Oak	
<i>Rhododendron</i> ... see Azalea	
Root Pruning	
in tropical fruit crops	14:47
Root Growth	
production method effects	14:88
Rooting	
stem cuttings of oak	14:77
stem cuttings of southern magnolia	14:158
Seed Germination	
of Lupine	14:167
Shade Tree Production	
in containers	14:9
Sludge	
a component in container media.....	14:91
<i>Stewartia</i> ... see Mountain Camellia	
<i>Syringa</i> ... see Lilac	
Transplanting	
fertilization and irrigation effects on	14:105
shoot water potential on	14:1
Tree Establishment	
production effects on	14:81
Tree Growth	
comparison of field production systems.....	14:142
Tropical Fruit Crops	
root pruning in	14:47
Turfgrass	
weed control with borax	14:101
<i>Ulmus</i> ... see Elm	
Water Stress	
in Maple	14:71
Weed Control	
in Christmas trees	14:42
in container-grown perennials	14:27
in field grown herbaceous perennials.....	14:221
in turfgrass	14:101
with herbicide coated fertilizer	14:5
