

This Journal of Environmental Horticulture article is reproduced with the consent of the Horticultural Research Institute (HRI – www.hriresearch.org), which was established in 1962 as the research and development affiliate of the American Nursery & Landscape Association (ANLA – <http://www.anla.org>).

HRI's Mission:

To direct, fund, promote and communicate horticultural research, which increases the quality and value of ornamental plants, improves the productivity and profitability of the nursery and landscape industry, and protects and enhances the environment.

The use of any trade name in this article does not imply an endorsement of the equipment, product or process named, nor any criticism of any similar products that are not mentioned.

1998 Volume 16, Issue 1–4

Subject Index

- Acclimatization**
of bedding plants 16:138
in Weigela cultivars 16:238
- Acer spp.** ... see **Maple**
- Anthrachnose**
dogwood cultivar susceptibility to 16:147
- Bare-Rooted Tree Species**
effect of storage on survival 16:195
- Bedding Plants**
acclimatization of 16:138
growth regulation on 16:111
- Betula spp.** ... see **Birch**
- Birch**
production of pot-in-pot systems 16:135
- Buddleia spp.** ... see **Butterfly Bush**
- Burning Bush**
weed control in 16:155
- Butterfly Bush**
nutrition of 16:111
- Cherry**
growth in pot-in-pot systems 16:159
- Chokeberry**
diagnosis of X-disease 16:33
- Cold Hardiness**
evaluation of nursery production systems for ... 16:82
in Weigela cultivars 16:238
- Container Plant Production**
effect of cyclic irrigation on 16:176
multi pot box system 16:60
of maple cultivars 16:130
preventing white grub infestation 16:202
- Container Type**
effect on root regeneration 16:55
- Container-Grown Trees**
in pot-in-pot production 16:215
- Cornus spp.** ... see **Dogwood**
- Cost of Production**
a comparison of nursery systems 16:65
- Crabapple**
cultivar susceptibility to Japanese beetle 16:105
introduction of 'Spring Bride' 16:125
- Crapemyrtle**
control of aphids on 16:52
cultivar susceptibility to powdery mildew 16:143
- Crataegus spp.** ... see **Hawthorn**
- Cultivar Introduction**
'Spring Bride' Flowering Crabapple 16:125
- Cyclic Irrigation**
in pot-in-pot production 16:159, 215
on growth of container grown nursery stock ... 16:176
to reduce herbicide losses 16:235
- Dogwood**
cultivar identification 16:163
cultivar susceptibility to powdery mildew 16:147
inoculation of dogwood anthracnose 16:37
- resistance to powdery mildew 16:173
- Dogwood Anthracnose**
inoculation techniques 16:37
- Economic Analysis**
of customer preference for nursery purchases .. 16:118
of nursery production systems 16:65
- Euonymus spp.** ... see **Burning Bush**
- Fertilization**
in nursery production 16:47
of birch in pot-in-pot culture 16:135
on growth of container-grown Crapemyrtle 16:98
using controlled release fertilizer 16:230
- Field Nursery Management Systems**
soil physical properties 16:90
- Freezing Injury**
evaluation of nursery production systems for ... 16:82
- Garden Center**
business characteristics 16:15
evaluation of marketing 16:243
plant material purchases in 16:20
review of customer preference 16:118
- Garden Writer's**
evaluation of information sources 16:207
- Grass**
ornamental use in landscapes 16:8
- Growth Regulation**
in pear 16:152
in woody landscape plants 16:114
of bedding plants 16:138
on landscape plants 16:11
on plaintain lilies 16:1
- Growth Retardant**
of landscape plants 16:11
- Hawthorn**
effect of root pruning on 16:127
- Herbicide**
controlled release 16:230
evaluation in turfgrass 16:76, 79
reducing runoff in nurseries 16:235
- Horticultural Oil**
to control Crapemyrtle aphid 16:52
- Hosta spp.** ... see **Plaintain Lily**
- Integrated Pest Management**
for control of Japanese beetle 16:105
- Irrigation**
use in softwood cutting propagation 16:42
- Irrigation Efficiency**
in container plant production 16:182
- Japanese Beetle**
control of in woody landscape plants 16:105
- Lagerstroemia spp.** ... see **Crapemyrtle**

Landscape Grasses		natural resistance in dogwood populations	16:173
evaluation of	16:218		
Landscape Performance		Propagation	
of bedding plants	16:138	of arborvitae	16:212
Landscape Plants		of rhododendron	16:4
performance in the North Central US	16:27	of softwood cuttings	16:42
Landscape Services		storage temperature on seed viability in	
review of customer preference	16:118	<i>Ericaceous</i> spp.	16:166
Landscape Usage		<i>Prunus</i> spp. . . . see Cherry, Chokeberry, and Peach	
of grasses	16:8	<i>Pyrus</i> spp. . . . see Pear	
Lime			
effect on growth of Butterfly bush	16:111	Recycled Paper	
Linden		for weed control	16:69
cultivar susceptibility to Japanese beetle	16:105	Retail Performance	
Living Mulches		in garden centers	16:15
to reduce winter injury	16:82	Rhododendron	
		propagation of	16:4
<i>Malus</i> spp. . . . see Crabapple		Root Regeneration	
Maple		in tree spp.	16:55
effect of container type on landscape		<i>Rosa</i> spp. . . . see Rose	
establishment	16:55	Rose	
effect of cyclic irrigation on growth	16:215	cultivar susceptibility to Japanese beetle	16:105
effect of root pruning on	16:127		
evaluation for growth traits	16:189	Seed propagation	
growth differences in cultivars	16:130	in <i>Ericaceous</i> spp.	16:166
Marketing		‘Spring Bride’ Flowering Crabapple	
Garden center evaluations	16:243	new plant introduction	16:125
		Storage	
Nitrogen Rate		effects on survival of nursery stock	16:195
on growth of Crapemyrtle	16:98	Sustainable Production Systems	
Nutrition		for nursery crops	16:90
of crape myrtle	16:98		
Ornamental Grasses		<i>Thuja</i> spp. . . . see Arborvitae	
evaluation of	16:8, 218	<i>Tilia</i> spp. . . . see Linden
