# Erratum

---

In the December 2009 issue of the Journal of Environmental Horticulture, Table 1 was incorrect in the paper, ‘A Test of Four Models to Predict the Risk of Naturalization of Non-native Woody Plants in the Chicago Region’ [Journal of Environmental Horticulture 27(4):241–250]. Data for *Phellodendron sachalinense* and *Philadelphus coronarius* were transposed in that table. The corrected entries are shown below.

**Table 1. Study area and naturalization status of species in Chicago datasets.**

Species	Used in Chicago A	Used in Chicago B	Naturalized in Chicago A	Naturalized in Chicago B
<i>Phellodendron sachalinense</i> (F. Schmidt) Sarg.	X			
<i>Philadelphus coronarius</i> L.	X	X		X
